

Hazel O'Leary

Federico Peña

Robert San Martin (Acting)

Frank Stewart (Acting)

Christine Ervin

Joseph Romm (Acting)

Daniel

Office renamed to EERE

Sunderman

React Vacuum Insulation

ium Telluride Modules (with Energy, Inc.)

anced Wind ne Blades Airfoils, Inc./ nix Industries)

um Indium phide/Gallium ide Tandem Cell

Copper Indium Gallium Diselenide Solar Cell Popular Science Award

Atomic Processing Microscope

Solar Detoxification of Hazardous Organic Materials in Ground Water (with Sandia National Laboratory)

DOE designates NREL's Solar Furnace as national user facility

www.nrel.gov NREL on the Internet

Ethanol from Corn Fiber (with New Energy Company)

Scanning Defect Mapping System

Aqueous Chelating Etch (with Sandia National Laboratory)

National Wind Technology Center dedication by Energy Secretary Hazel O'Leary

Visitors Center

Outdoor Test Facility (OTF)

Dr. Charlie Gay

Single-Fermenter Cellulosic Biocatalyst [Zymomonas]

Method of Making Silicon Carbide Powder (with Coors Ceramics Company/ Golden Technologies, Inc.)

Variable-Conductance Insulation Catalytic Converter (with Benteler Industries)

National Center for Photovoltaics (NCPV) created 11/19/96

Staff reduction in force

theSource new NREL Intranet site debuts

Solar Energy Research Facility (SERF)

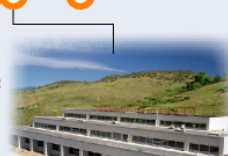

Transpired Solar Collector Popular Science Award

DOE dedicates NREL's Biofuels Process Development Unit

Alternative Fuels User Facility

Variable-Conductance Insulation Catalytic Converter Discover Finalists
